MOLIKULE

Unabated Zeal in Innovation

www.molikule.com

THE PESSIMIST
complains about the wind.
THE OPTIMIST
expects it to change.
THE LEADER
adjusts the sails.

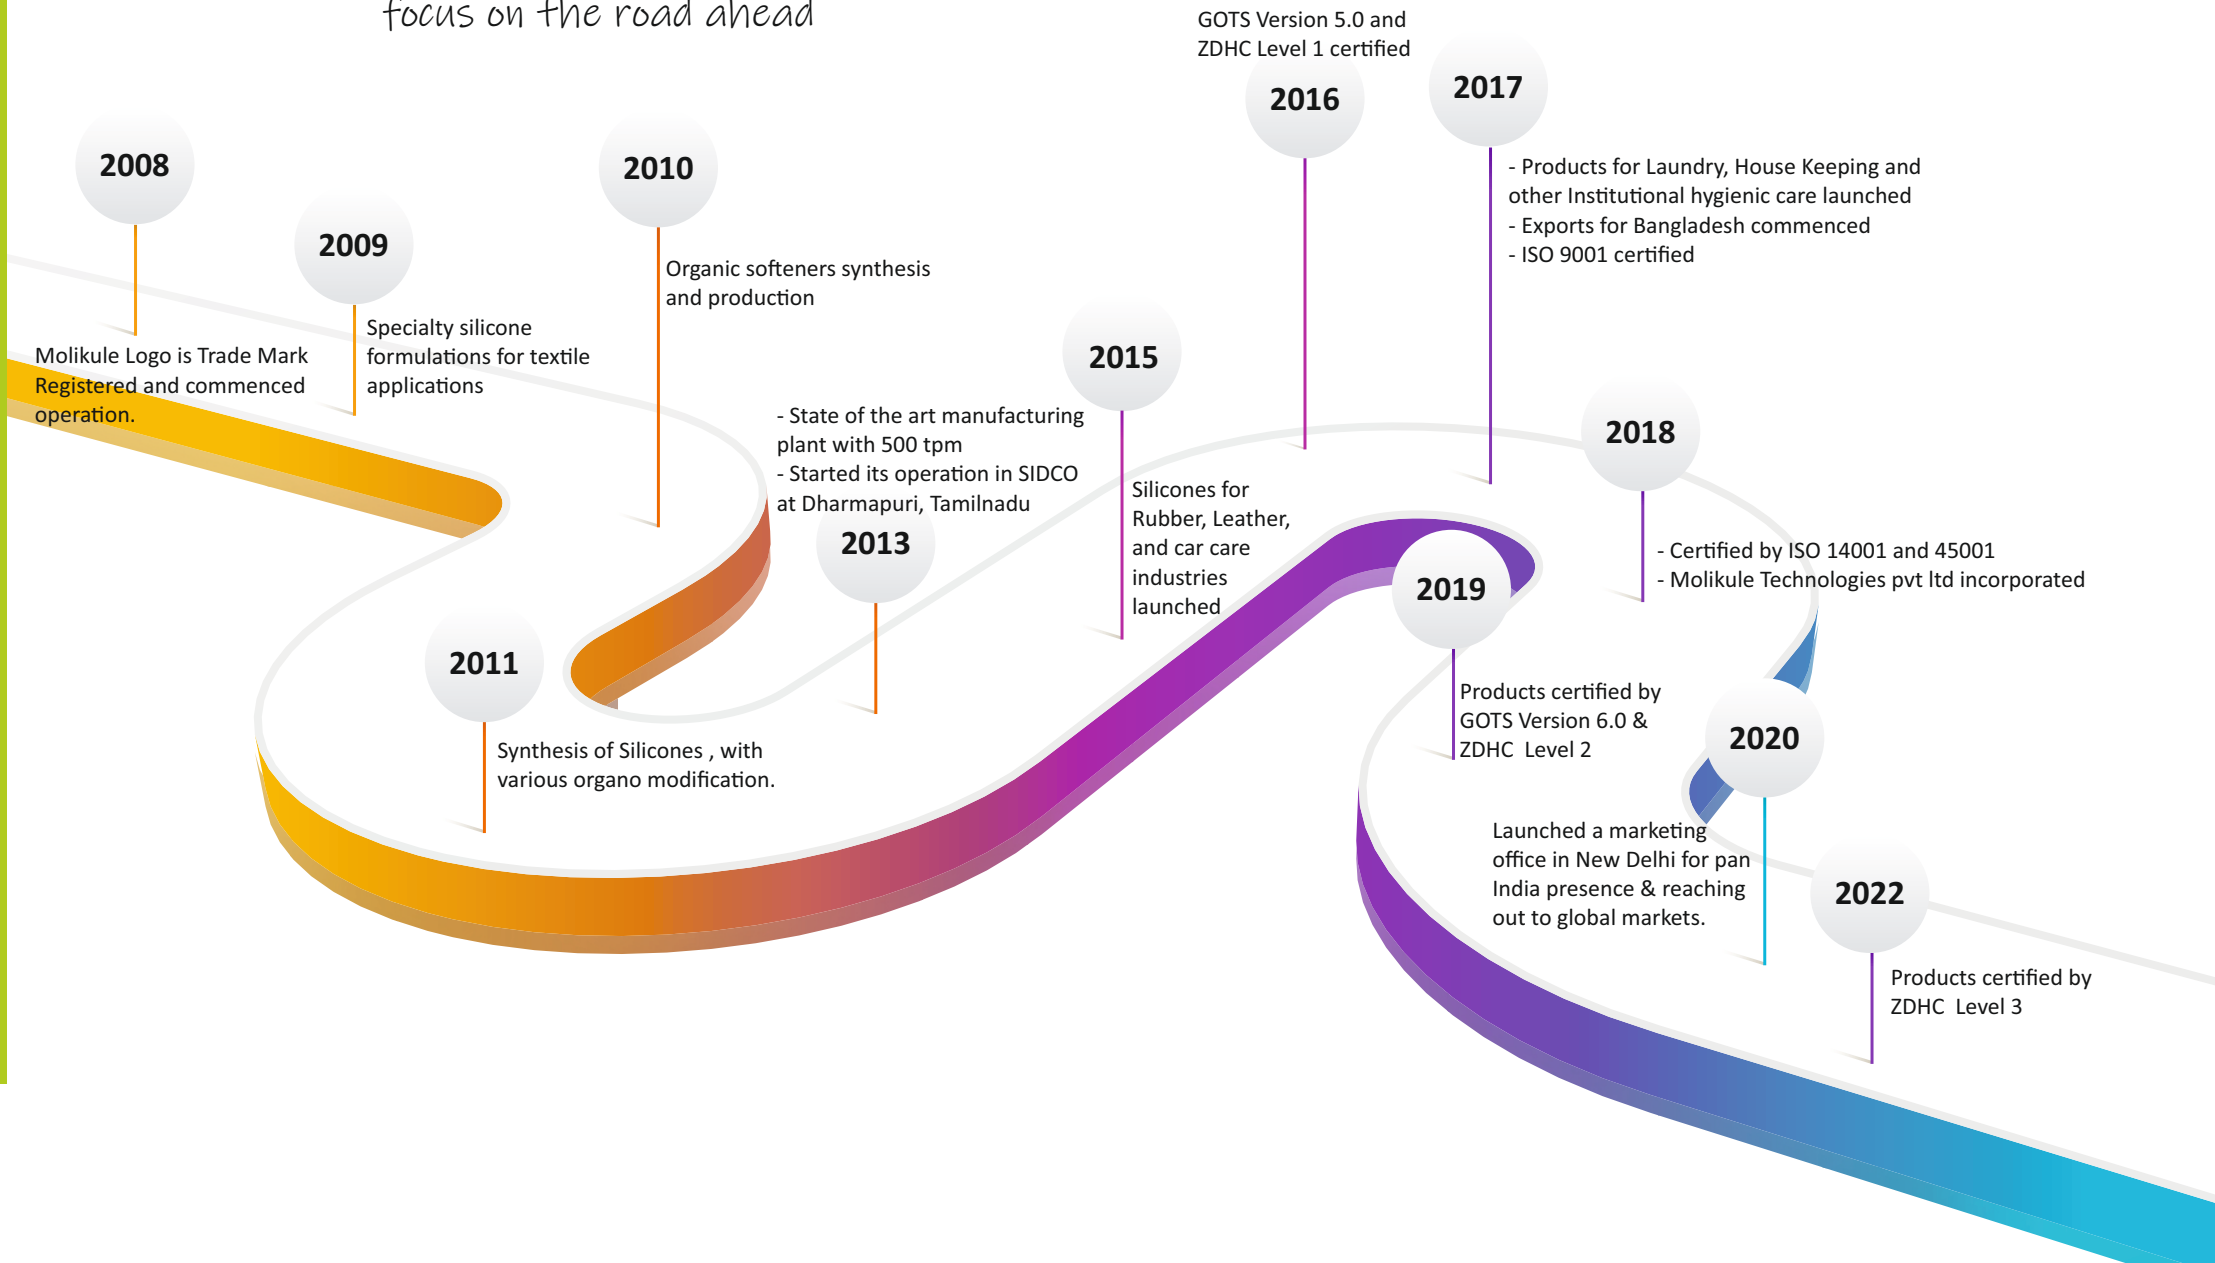

Sivakumar, Co-founder, Director and Member of the Board at Molikule has a rich background in marketing and operations. He has created an impressive record for customer satisfaction. Over the years he has scaled up the operations to facilitate improved business for numerous textile processing mills, garment washing units, Rubber processing units, car and bike servicing centres & hospitality institutions. His focus lies on personalised solutions for customers across 500+ products, enabling customer delight from start to finish. He strongly believes that values are the foundation for growth. So he ensures the team always follows the best practices in the industry with high levels of eco-consciousness.

Gokulanathan, Co-founder, Director and member of the Board at Molikule, has an educational background in Rubber and polymer technology. He also has several years of experience working in the field of silicones and application chemistry. He believes that technology and sustainability must go hand in hand to reduce the carbon footprint of manufacturing chemicals. This idea has gotten him involved with green initiatives across industries. He is committed to transform Molikule from being a mere producer to responsible producer. Today, Gokulanathan dedicates much of his time to personal development, training and mentoring. This is something he has been passionate about for many years.

Manmath admires people who work to solve problems and create positive change. He has built a career around working with people who want to find new solutions to age-old problems. He's now a Director and Member of the Board and has been with the Molikule team since 2021. Manmath believes that several world problems can be solved when right materials reach the right hands at the right time. He is keen to forge into newer markets, to delight existing clients across the globe by speed, scale and successful business networks. His passion to use artificial intelligence to map geography with the nearest distributor in no time is yielding amazing results.

Our Milestones

We celebrate milestones as we focus on the road ahead

VISION

Our vision is to become world class and excel as the most respected sustainable chemistry partner to all our customers.

MISSION

Our mission is to create an ambience with 'unabated zeal' for research and innovation coupled with best practices in manufacturing, marketing and customer support.

CORE VALUES

Compassion

We treat people with respect and kindness simply because it feels good and we want the goodness to be with all of us.

Knowledge

We believe in creating an ecosystem of learning and sharing; building a knowledge bank that benefits our employees and customers.

Integrity

We have no price on integrity. We hold it as our highest virtue and as the bedrock of our organisation.

Collaboration

We need futuristic ideas in solving tomorrow's challenges that face our global clientele. We pool in the expertise from multi-disciplinary fields and collaborate to serve our clients better.

Customer Focus

We develop relationships that make a positive difference in our customers businesses and personal lives.

Sustainable Practice

We commit ourselves to create products that are friends of nature and help the blue planet breathe better.

QUALITY POLICY

We at Molikule Technologies Pvt Ltd are committed to delight our customers in each and every transaction with our products and technical support

The policy shall be delivered through

- Continual improvement in the field of product design, manufacturing practices, and cost management.
- Development of human resources and training
- Development of overall quality management system that produces excellence

**We Go Far to Give You
The Best Experience**

OUR ENVIRONMENTAL POLICY

We, at Molikule Technologies pvt ltd, recognise that the effective management of environment impact is fundamental part of our business. we shall strive to integrate sound environmental practices across all out activities and attain leadership position in environmental stewardship.

The policy shall be delivered through

- Green procurement of all our raw materials
- Maintaining positive legal compliance adhering to PCB.
- Taking initiative towards efficient use of natural resources and energy
- Monitor, measure, report the progress of environmental conservation initiatives

**To Think And Act Green
is in Our DNA**

ISO Certifications

Certifications that Count

Certificate
Breakthrough Management Quality Registrar (BMQR)
Certifies that the Quality Management System of

MOLIKULE TECHNOLOGIES PRIVATE LIMITED
Plot No: 2, 3 & 4, SIDCO Industrial Estate, Near Pachinampatti, Kadagathur, Sellampatti Post, Dharmapuri - 636 809, Tamilnadu, India.

has been assessed and found to be in accordance with the requirements of the quality standards

ISO 9001:2015
for the following scope of certification

MANUFACTURING OF SILICON FOR TEXTILES, RUBBER, AUTOMOBILE CARE AND HOME CARE PRODUCTS

Further clarifications regarding the scope of this certificate and applicability of ISO 9001:2015 requirements may be obtained by consulting the organization.

Reliable & Sustainable

LETTER OF APPROVAL
For Colourants / Textile Auxiliaries

N° GOTS-C 036665-01-2021

On basis of information provided and approved according to the applicable criteria of the **Global Organic Textile Standard (GOTS) - Version 6.0**.

Accrediting the listed Colourants and/or Textile Auxiliaries are approved for use as inputs for the preparation of the processing of GOTS and label products.

It is further confirmed that the formulator has been audited for product stewardship as well as environmental, health & safety requirements in the Standard on 07 November 2021.

This Letter of Approval is valid until: **28 November 2022**

Place and Date of Issue:
New Mumbai, 27 December 2021

Name of the authorized person:
Dr. Sangeeta M. Vengalil Director
M. Vengalil - Co-Owner

This Letter of Approval replaces any previous version(s).

The issuing body can withdraw this Letter of Approval before it expires if the declared approval is no longer in demand.

For which the product has been assessed, remain responsible for the correctness and completeness of the product data as well as for the declared content of the approved colourants or GOTS. Requested information to any of the approved inputs, of which no technology has been checked after this approval letter has been issued, shall be forwarded to the Issuing Body without delay.

Accredited by: International Organic Accreditation Services (IOAS), Accreditation #I 01

Our Strengths

01

Our Team

"Find a group of people who challenge and inspire you, spend lot of time with them, and it will change your life" - Amy Poehler

We strongly believe in team work, keep challenging and pushing the border. Our team members are experts in different fields viz, product designing, manufacturing, marketing, application and finance with more than 25+ years experience.

Here green is not the flavour that is added in the last stage of the process. Sustainable Green Practices are in our DNA. You benefit mother earth each time you choose us. Every product sets a new benchmark with several certifications.

Total Green

02

03

You First

We put our customers first, always. We serve not only when you need us most but also when you hardly expect. Each and every step is taken keeping you in our mind. We customise our products to suit your requirements.

We continually innovate to meet the aspirations of the world's next generation. Having many young customers' means we need to personalise and customise quite often. We are happy doing it as it raises the overall quality and experience of all our products.

World Next

04

We Step Up to Serve You Better

State of the art polymer manufacturing plant at Dharmapuri has a capacity of 3000 MT per month. We are under expansion to add another 3000 MT per month. We are all set to double up!

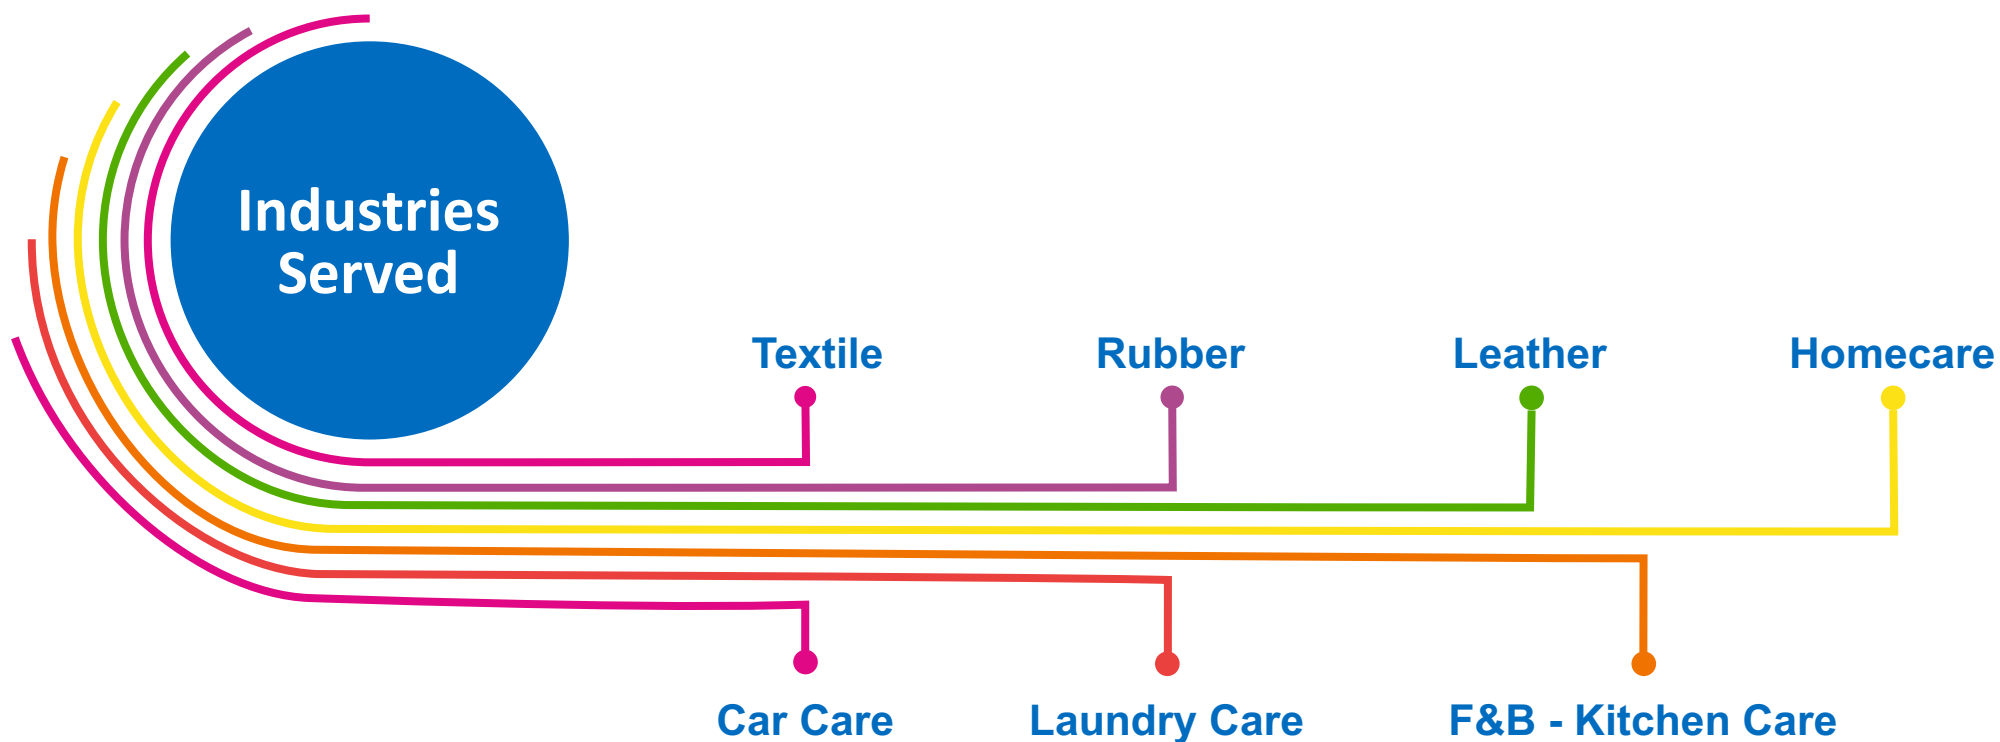

RESEARCH & DEVELOPMENT

Molikule's manufacturing plant has a team of scientists who do pioneering work in modern chemistry

- Silicone ring opening polymerisation, co-polymerisation.
- Synthesis of shear stable fluids, hydrophilic Block silicone polymers
- Micro, Macro, Mini and Nano emulsification techniques.
- Synthesis and formulation of textile Auxiliaries and processing
- Customisation of end products based on specific requirements
- Experts in product configuration for housekeeping, F & B kitchen cleaning, Laundry care, Car and Bike care applications.
